

Author Index Volume 19

Anderson, J.E., Safe design of personal rapid transit systems	19 (1995) 253
Aparicio, F., see C. Vera	19 (1995) 179
Baksteen, B., Flying is not safe	19 (1995) 287
Baxter, T., Independent investigation of transportation accidents	19 (1995) 271
Bentley, R., J.A. Hughes, D. Randall and D.Z. Shapiro, Technological support for decision making in a safety critical environment	19 (1995) 149
Bradford, M., see M. Galer	19 (1995) 119
Bruggers, J.H.A. and S. Mulder, Epidemiology, causes and prevention of bicycle wheel entanglements	19 (1995) 87
Carlebur, A.F.C., Full-scale collision tests	19 (1995) 171
Chaloupka, C. and R. Risser, Don't wait for accidents - possibilities to assess risk in traffic by applying the 'Wiener Fahrprobe'	19 (1995) 137
De Kroes, J.L., A broad-brush outline for the railways of the next century	19 (1995) 265
Dennis, N., see P. White	19 (1995) 99
De Vries, W.A., see D. Roeleven	19 (1995) 191
Froese, J., Sea transport safety - A challenge to European maritime society	19 (1995) 279
Galer, M., P. Thomas and M. Bradford, Conducting in-depth accident studies	19 (1995) 119
Godthelp, H., see J. Theeuwes	19 (1995) 217
Hara, K. and S. Nakamura, A comprehensive assessment system for the maritime traffic environment	19 (1995) 203
Heijkamp, A.H., see J.H.A. Van Uden	19 (1995) 245
Hughes, J.A., see R. Bentley	19 (1995) 149
Isaksson-Hellman, I., see H. Norin	19 (1995) 45
Janssen, W., M. Wierda and R. Van der Horst, Automation and the future of driver behavior	19 (1995) 237
Jones, C., see D.P. Manning	19 (1995) 19
Kjellén, U., Integrating analyses of the risk of occupational accidents into the design process - Part II: Method for prediction of the LTI-rate	19 (1995) 3
Koch, M., see H. Norin	19 (1995) 57
Kok, M., see D. Roeleven	19 (1995) 191

- Manning, D.P. and C. Jones, High heels and polished floors: The ultimate challenge in research on slip-resistance 19 (1995) 19
- Mulder, S., see J.H.A. Bruggers 19 (1995) 87
- Nakamura, S., see K. Hara 19 (1995) 203
- Norin, H. and I. Isaksson-Hellman, Injury potential prediction of a safety design feature: A theoretical method based on simulations and traffic accident data 19 (1995) 45
- Norin, H., M. Koch, S. Ryrberg and S.-E. Svensson, Combining accident data and laboratory simulation data reduces the risk for sub-optimized safety systems in cars 19 (1995) 57
- Perdok, J. and P.H. Wewerinke, Nautical safety and efficiency: simulation and reality 19 (1995) 157
- Randall, D., see R. Bentley 19 (1995) 149
- Risser, R., see C. Chaloupka 19 (1995) 137
- Roeleven, D., M. Kok, H.L. Stipdonk and W.A. De Vries, Inland waterway transport: Modelling the probability of accidents 19 (1995) 191
- Ryrberg, S., see H. Norin 19 (1995) 57
- San Román, J.L., see C. Vera 19 (1995) 179
- Shapiro, D.Z., see R. Bentley 19 (1995) 149
- Stipdonk, H.L., see D. Roeleven 19 (1995) 191
- Stoop, J.A., Accidents – In-Depth Analysis; towards a method AIDA? 19 (1995) 125
- Svensson, S.-E., see H. Norin 19 (1995) 57
- Sweedler, B.M., Safety Recommendations – The engine that drives change 19 (1995) 295
- Tarko, A. and M. Tracz, Accident prediction models for signalized crosswalks 19 (1995) 109
- Theeuwes, J. and H. Godthelp, Self-explaining roads 19 (1995) 217
- Thomas, P., see M. Galer 19 (1995) 119
- Tracz, M., see A. Tarko 19 (1995) 109
- Tyler, N., see P. White 19 (1995) 99
- Van der Horst, R., see W. Janssen 19 (1995) 237
- Van Uden, J.H.A. and A.H. Heijkamp, Intrinsic road safety: A new approach? 19 (1995) 245
- Vera, C., F. Aparicio and J.L. San Román, Theoretic model for the computer analysis of vehicle collisions 19 (1995) 179
- Ward, N.J. and G.J.S. Wilde, A Comparison of vehicular approach speed and braking between day and nighttime periods at an automated railway crossing 19 (1995) 31
- Wewerinke, P.H., see J. Perdok 19 (1995) 157
- White, P., N. Dennis and N. Tyler, Analysis of recent trends in bus and coach safety in Britain 19 (1995) 99
- Wierda, M., see W. Janssen 19 (1995) 237
- Wilde, G.J.S., see N.J. Ward 19 (1995) 31
